# Fuengirola's Maths world champions

Juan Alberto and Curro García proved to be true world-beaters at mental arithmetic at the SupertMatik competition

**SUR** FUENGIROLA

16 June 2017  
14:28

Curro García, 8, and Juan Alberto Gómez, 11, seem like ordinary children enjoying school at Colegio Salliver in Fuengirola. However, behind the cheeky smiles, they are true world-beaters at mental arithmetic. Some 200,000 children globally compete in an annual competition organised by SupertMatik. Juan Alberto is world champion in his category and Curro is runner up. Each category had 20,000 taking part this year.
